

Dr Julian Magarey

Associate, Electrical/ICT team

E: julian.magarey@sprusons.com.au

Julian joined us from the Australian R&D subsidiary of a multinational imaging technology company, where he had spent six years as an in-house patent engineer drafting and prosecuting patent applications in Australia, the US, Europe, and Asia. Before that he had been a research engineer developing image and video processing algorithms for smart cameras. This encompassed four years of postgraduate studies in the Engineering Department of the University of Cambridge culminating in a Ph.D., two years of postdoctoral work for a Cooperative Research Centre in Adelaide, and three years of corporate research and development.

Julian completed a Masters in Industrial Property at UTS before registering as an Australian Patent Attorney in February 2008. Julian's principal experience lies in algorithms and specialised hardware for signal and image processing, including compression, classification, detection, recognition, and protection, and computer text and graphics rendering and analysis.
